

Cercidium hybrid 'Sonoran Emerald'

'SONORAN EMERALD' PALO VERDE

Our popular flagship Palo Verde! Recognized as a special and unique thornless multi-species *Parkinsonia* hybrid. 'Sonoran Emerald' is a rare selection discovered and produced exclusively by Arizona Wholesale Growers and it has offered outstanding performance. 'Sonoran Emerald' acquired all the best natural traits and none of the bad ones, as with other hybrid Palo Verdes. While others struggle with root stabilization issues and show excessive speed of growth that often leads them to simply topple over in only a few years, savvy landscape architects and contractors have discovered 'Sonoran Emerald' outperforms all others. Designers also appreciate their long-lasting bright emerald-green bark, and foliage along with their intense yellow springtime color.
