

Artemesia x 'Powis Castle'

'POWIS CASTLE' WORMWOOD

Perfect foliage favorite. An adaptable evergreen perennial shrub with silver lacy foliage that forms a rounded mound. In low deserts, it performs best in afternoon shade with supplemental irrigation. Easy to maintain with periodic annual pruning or thinning to control size and shape. All Artemisia sp. require well-drained soils and avoid overhead watering to prevent issues with crown rot. Slow growing to start, with faster growth as root system develops.
