PLANT DETAILS

Bougainvillea x 'Barbara Karst'

'BARBARA KARST' BOUGAINVILLEA

Evergreen shrubby showy vines. 'Barbara Karst' (a.k.a. BK) sets the standard with long-lasting bright magenta to red colored bracts. 'BK' is fast growing and virtually indestructible requiring minimal care. Available in bush form and staked. Most Bougainvillea grow into tall and wide thorny, woody vines. Support is needed initially, but with strong, vigorous growth, plants mature quickly to stand alone displaying brilliantly colored bracts. *The roots of all Bougainvillea sp. are sensitive to disturbance. Care and gentle handling during planting are needed to avoid stress and transplant shock.*
