PLANT DETAILS

Leucophyllum langmaniae 'Brave River'

BRAVE RIVER TEXAS SAGE OR 'RIO BRAVO' TEXAS SAGE

Small dark olive-green leaves with purple blooms. This selection is a compact growing, darker green *L. langmaniae*. It grows at a slow to moderate rate to a size of about 4 ft. high and wide with a round or domed habit. The flowers are large and lavender in color, which stand out well against the dark olive green foliage. Low maintenance and low water use in well-drained soils. They can be kept smaller by shearing because the flower display is not as significant with this selection.

DESCRIPTION
